The Vitality Show 2006

Presentation about Goal Setting 2006

How will I learn all this in just 3 days?

This is a very practical programme. We use Neuro Linguistic Programming (NLP) to build your confidence, skills and beliefs as a presenter. We do this by giving you lots of experience of presenting as well as teaching you the core skills. You will get immediate feedback from our team who are all trainers of NLP. This will accelerate your learning during the 3 days to transform your performance.

So what if I decide to attend this programme?

Just imagine if you could look out to your audience at the end of your next presentation, hearing their applause and feeling absolutely wonderful. How much value would there be in that for you? Don't believe me? Come along to our next Powerful Presentations programme and be amazed.
